

Precisometer

Heatsink

offer six kinds of heatsink to control temperature for laser, it gives laser a good and constant working condition and environment, which is better for making the laser more stable and extending the lifetime of lasers.

Model	TC-01
Material	AL
Operating temperature	15~35°
Accuracy	±0.5°; ±1°
Temperature-controlled area dimens	180mm×80mm
Power consumption	20~100W depends on room temperatur
Power supply (100-240VAC)	PSU-H-LED
Warranty	1 year
Datesheet	

Model	TC-02
Material	AL
Dimensions	197(L) ×110(W) ×47.5(H) mm³
Weight	1.2kg
Datesheet	

Model	TC-02-FS
Material	AL
Dimensions	220 (L) ×110(W) ×47.5(H) mm³
Weight	1.25kg
Datesheet	

Model	TC-04-FS
Material	AL
Dimensions	188(L) ×76.2(W) ×43(H) mm³
Weight	0.65kg
Datesheet	

Model	TC-05
Material	AL
Dimensions	140(L) ×80(W) ×39(H) mm³
Weight	0.7kg
Datesheet	

Model	TC-06
Material	AL
Dimensions	220 (L) ×100(W) ×51(H) mm³
Weight	1.6kg
Datesheet
