Disposable slides for automated brightfield counting

Specify the counter and cell size when requesting compatible disposable slides.

Cell counting

Features

- Four independent sample chambers for automated brightfield counting.
- Single-use slide format avoids washing and reusing counting chambers.

Technical specifications

Dimensions	25 × 75 × 2 mm
Chambers	Four
Loading volume	20 µL/chamber
Stain	Trypan blue
Packing	50 slides / 200 chamber tests

Applications

- Disposable sample loading for the automated brightfield cell counter.

Configurations and accessories

- Confirm the instrument and slide version when ordering. Compatibility with other counter versions needs verification.
