

Ø12.7mm Imperial Post and Post Holders

PEP series Imperial Standard Post

Brief Introduction:

The PEP series imperial standard posts come with a 1/4"-20 male thread on one end and a 1/4"-20 UNC-2B female thread on the other end, available in lengths of 50mm, 76mm, and 102mm.

The '-B series' features an 8-32 UNC-2B female thread on one end and a 1/4"-20 UNC-2B female thread on the other end, also available in lengths of 50mm, 76mm, and 102mm."

The holder provides lockable, non-rotating height adjustment. First, insert the post into the post holder, set the height coarsely, and use the thumb screw to fix the post in place. Then, use the adjustable ring for fine-tuning.

Material:

Stainless Steel

Features:

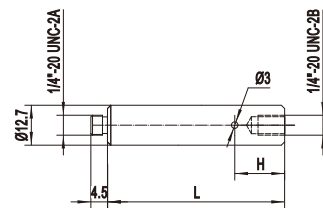

There is a Ø3mm through hole on the side of the post, with a wrench is inserted and rotated, the post can be tightened firmly.
