

PMS-LTD-265LR/G/B/W

Compact Parallel Illumination

PMS-LTD-265LR/G/B/W compact parallel illumination. Beam diameter: 265mm.
Folded parallel backlights for telecentric inspection where installation space is limited.

Model specifications	
Beam diameter	265mm
Working distance	150-500mm
Length	438.26mm
Width	609mm
Thickness	337.5mm
Forward voltage	3.5V
Forward current	350mA
Available colors	Red / Green / Blue / White

Specification notes

The series introduction says 35–265 mm aperture; the model table specifies 30–265 mm beam diameter. The model-specific table values are retained.

The compact-parallel mechanical table and labeled drawings contain different dimensions. The table values are retained as published; confirm the installation envelope against the selected model drawing.
