

PMS-LTD-60R/G/B/W

Parallel Illumination

PMS-LTD-60R/G/B/W parallel illumination. Beam diameter: 60mm. Telecentric LED backlighting for high-contrast edges and profile measurement.

Model specifications	
Beam diameter	60mm
Working distance	90-180mm
Outer diameter	72mm
Length	180mm
Forward voltage	3.5V
Forward current	350mA
Available colors	Red / Green / Blue / White

Specification notes

The series introduction says 35–265 mm aperture; the model table specifies 30–265 mm beam diameter. The model-specific table values are retained.

The parallel-light mechanical table and labeled drawings contain different lengths. The table values are retained as published; confirm the installation envelope against the selected model drawing.
