

PMS-Z125D

With the perfect combination of high resolution and big magnification ratio, the most universal zoom lens is widely used in various industry applications.

PRODUCT ADVANTAGES

- Professional optical design, optical magnification 0.58×-7.5×, magnification ratio 12.5:1.
- Big FOV application, based on 2/3" camera.
- Compact structure, easy to assemble and install.

APPLICATION FIELDS

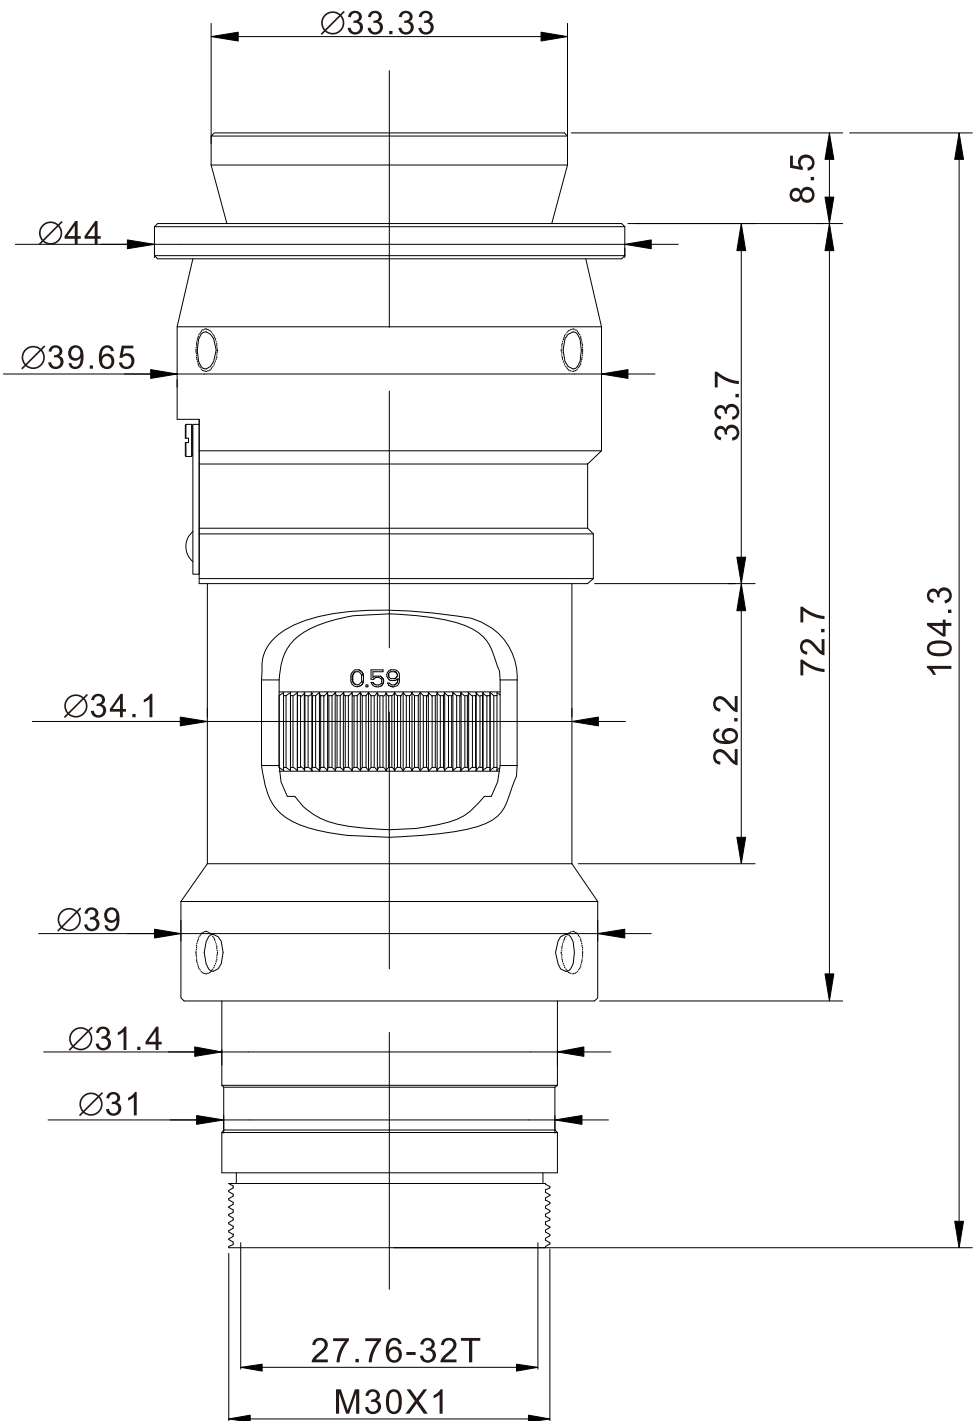

It can be used in semiconductor, automation, electronic communication and other industries.

CONTROLLER BOX

The integrated motorized control system is suitable for all of these zoom lenses. The motorized control system can control single or dual shafts via RS232 or USB. The underlying software code for the OEM platform will also be provided.
